50th Annual Natural Hazards Workshop

(13-17 Jul 2025; University of Colorado Boulder, USA)

The 50th Annual Natural Hazards Workshop (Natural Hazards) is organised by [Natural Hazards Center of University Colorado Boulder](#) in Boulder, USA, this July! This year's theme, 'The Next 50 Years: Charting a Course for the Hazards and Disaster Field', invites researchers and practitioners to reflect on the vast knowledge accumulated over the decades countered on how changing conditions in natural, built, social, and political environments challenging conventional approaches to hazards management. Abstract

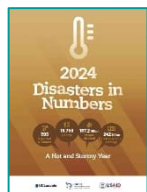

submissions for Research and Practice Highlights are still open until 6 June 2025. For more details, please visit the [conference website](#).

Publications of Interest

2024 Disasters in Numbers

(Centre for Research on the Epidemiology of Disasters (CRED); Apr 2025)

The report provides a *global overview of natural hazard-related disasters* recorded in 2024, based on data from the EM-DAT database. It quantifies the human, social, and economic impacts of these events, focusing on mortality, number of people affected, and economic losses. The report also *serves to inform and support disaster risk reduction (DRR) efforts globally*, helping policymakers, humanitarian organizations, and researchers understand emerging trends, vulnerabilities, and the effectiveness of current preparedness strategies.

Rapid Post-Disaster Needs Assessment Survey for Media Institutions

(UNESCO; Apr 2025)

The document provides a *structured framework for assessing the impact of a disaster on a given media outlet*, identifying its immediate and longer-term needs, and supporting its recovery with essential data to inform decision-making and resource mobilization. It also covers multiple key areas as well as serves as a *potent tool for duty bearers, aid and development agencies, media support organizations*, and media outlets themselves to identify gaps and develop targeted responses.
